

DISTILLATION

GIN, ONLY BETTER

Brockmans unique recipe of naturally grown aromatic botanicals are steeped in pure grain spirit for many hours to release their natural oils and aromas. The more traditional notes of gin are combined with a refreshing influence of citrus and aromatic wild berries. Bulgarian coriander plays its part, providing an aromatic, gingery orange top note. This blends perfectly with the soft and rounded harmonies of blueberries and blackberries, all of which is supported by the bottom note of Tuscan juniper berries. Dry, bittersweet Valencian orange peel elongates the deeper tones and gives an intensely smooth finish.

Thereafter, Brockmans is slowly distilled in a 100 year old traditional copper still, where we capture the heart of the gin distillation. The distinctive gin notes derived from Brockmans unique recipe deliver an exquisite intensely smooth gin, with a uniquely defining sensual taste experience.
